Best Practices adopted, if any

1. Continuous evaluation and effective mentoring College identifies the needs of students through the regular interaction with them in mentor-mentee meeting and class committee. During HODs meeting, necessary amendments are taken to fulfill the needs of students for imparting quality education as follows: • The course teacher identifies the requirements of the students and gives lectures on the topics. • The students are encouraged to take part in symposia, workshops and seminars to gain knowledge in the emerging topics. • The students are encouraged to take innovative projects, industrial projects and mini-projects to bridge the gap between institution and industry. • Special guest lectures, seminars by resource persons from industry and research organizations are arranged periodically to fulfil the learning needs on the emerging areas. • The college library provides lot of journals and e-books, through which the students can gain knowledge on the advanced topics. • Students are encouraged to take research projects along with the faculty members and to present papers at seminars and conferences. • The class toppers are encouraged for University Rank/ Distinction • University rank holders and class toppers are honored during graduation ceremony • The students are encouraged to view webinars from IEEE, NI, IIT, ACM etc. • Special courses are offered as per the request. • The students are encouraged to take leadership roles in academic and co-curricular activities 2. Enhancing Students' Placements and motivating them for Higher Education • The college encourages the students to appear for competitive Examinations such as UPSC, TSPSC, GATE, CAT, TOEFL, GRE, IELTS, PSU etc. • Information on Higher Studies with Scholarship/ Internship opportunities are given to the aspirants through seminar • Promoting to sign MoUs with the industries to impart knowledge with the students through in-plant training, internship, industrial visit, etc. • Motivating to register for NPTEL Courses and MOOC to enhance their knowledge in different areas. It increases the domain-based certification and promotes employment opportunities. • Involving the students in consultancy works to groom their skills to solve real time industrial problems
